Need of the hour :

- Fully made in India E-commerce Platform in line with idea of **Atmanirbhar Bharat**.
- For providing opportunities to local sellers and vendors.
- We envision to provide a platform to small business-owners and craftsman to expand their business.
- A small prototype will be launched for our locality first which can be expanded later.
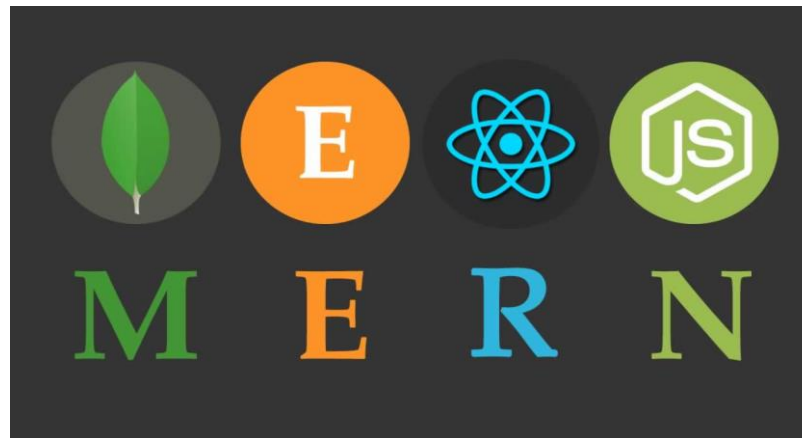

Apna Bazaar

Salient features are :

- User Authentication for surfing
- Searching and Predicting what a user wants to buy
- Buying and Selling of Products
- Products sorted by categories and different filters products
- Creating Wishlist and Carts for a Purchase
- **Customer Review panel or Experience Panel.**
- Reward system for best performing sellers.
- Multiple payment gateways
- Ability to scale and add new features
